

Welcome to Direct Action to Stop the War's day of decentralized, multiple-target non-violent direct action against government offices, politicians and war profiteers in downtown San Francisco.

We're no longer waiting for the politicians to end this war. We're instead voting with our feet, voices and bodies. Today, we will amplify outrage at the administration and their corporate partners' past 5 years of war and destruction in Iraq.

As we enter the 6th year of war in Iraq, we have created this menu of San Francisco offices of federal agencies, corporations with military contracts or contracts in Iraq, politicians who have failed to stop the war, and foreign embassies of countries linked to the war in Iraq. We are focusing primarily on companies with military or Iraqi contracts, because we want to focus attention on the prominent role played by corporate war-profiteers in the U.S. occupation of Iraq.

Good luck, and stay safe and sensible. See you in the streets.

#### Some Recommended Tactics

- Blockade the entrance to the building.
- Occupy their offices and refuse to leave.
- Do a sit-in or die-in in or outside their office.
- Participate in some street theater.
- Join a march/tour of shame originating at Market and Sansome throughout the morning.
- Join the bike bloc.
- Support groups and individuals engaging in non-violent direct action.

*We'll see you in the streets!*
